Indian Institute of Technology Bhubaneswar

School of Humanities, Social Sciences and Management

English Diagnostic Test

Date: 01 November 2022   **Time:** 9:00 a.m. – 10:30 a.m.

Mode of Exam: Offline   **Total Marks:** 100

Venue: Community Center and Lab Building Complex (LBC)

The English Diagnostic Test is conducted at IIT Bhubaneswar for 1st year B.Tech students at the beginning of every academic year. English Diagnostic Test identifies issues that students have with the English language. The main objective of the test is to help students meet certain academic standards by identifying their strengths and weaknesses in academic English that may interfere with their learning, course-work, teaching and research at IIT Bhubaneswar. The test also aims at improving the quality of teaching, learning, and curriculum at the Institute by helping students find remedies for their weaknesses and poor performance in English language. The test mainly consists of components such as all four language skills: listening, speaking, reading and writing (LSRW) including vocabulary and grammar.

Test Components:

The English Diagnostic Test includes the following components:

Part- A: Grammar, Vocabulary, Listening Comprehension, Reading Comprehension, Writing Skills
                                                                                (Marks: 80)

- ✓ Written test with the objective questions of multiple choice (A, B, C, D) options.
- ✓ Answers have to be marked in the OMR sheet.

Part- B: Speaking Skills Test   10 mins for each student   (20 marks)

- ✓ Students have to speak on a given topic and interact with the language expert.
