

IIT-BBS among top 20 varsities

IIT Bhubaneswar has occupied the 20th position in the Quacquarelli Symonds (QS) India University Rankings 2020, featuring the first top 100 universities and institutes of the country. Last year, the institute had ranked 21.

This is the second time QS has published separate ranking for top institutions in India. The rankings were made by British higher education analysts on the basis of eight parameters having different weightage. The eight parameters are academic reputation (30%), employer reputation (20%), faculty student ratio (20%), staff with PhD (10%), Papers per faculty (10%), citation per paper (5%), international faculty (2.5%) and international students (2.5%).

“The vision of IIT Bhubaneswar is to be globally well respected for producing outstanding graduates and generating new knowledge. In order to fulfil this dream, we aim to figure among the top 50-100 best Institutions in the world, as soon as possible. We are happy about the ranking performance of the institute. However, a lot more needs to be done in the years to come,” said IIT director, RV Raja Kumar.

The Three University Mission Rankings (Russia) has ranked the Institute in 701-800. In addition, IIT Bhubaneswar has been ranked by various credible national agencies. The Institute has been ranked 17th by National Institutional Ranking Framework (NIRF)-MHRD.
