[IIT-BBS holds poster show on Science Day](#)

Saturday, 29 February 2020 | PNS | BHUBANESWAR

The Indian Institute of Technology (IIT), Bhubaneswar celebrated the National Science Day and 10th Research Scholar Day on February 27-28 in order to commemorate the invention of the Raman Effect by the Indian physicist and Nobel Laureate Sir CV Raman. The event comprised of a poster presentation session by research scholars which was inaugurated by the Prof RV Raja Kumar where the research scholars showcased their findings through posters and explained their research works to all.

The chief guest on the occasion was Director CSIR-IMMT, Bhubaneswar, Prof Suddhasatwa Basu. Speaking on the Occasion, Director, IIT Bhubaneswar, Prof. RV Rajakumar said, "At present the need of the hour is to stretch ourselves to carry on research of higher relevance, come out with better science and technology creations, conscious about the need for sustainable, eco-friendly, green and energy-efficient technologies and have more reliable manufacturing. I also urge the students to develop a good overview and understanding of the research problems and apply high level of creativity."

Prof Basu explained several complex aspects of science and technology lucidly and in an easy to understand manner by giving day to day life examples. The event was followed by announcement of the three best posters, as evaluated by a panel members at IIT Bhubaneswar. The prizes and certificates were awarded.
