

IIT Bhubaneswar starts new academic year through online mode

By [Mahaveer](#) 30 August 2020

Indian Institute of Expertise Bhubaneswar has commenced courses for the brand new educational yr by online mode for its on-roll college students in addition to the brand new postgraduate college students (MTech, MSc and PhD college students) amidst Covid-19 pandemic.

All of the courses at the moment are being performed by stay streaming with out the bodily presence of scholars within the campus, the institute mentioned in an announcement.

“That’s, the current semester has began virtually on time, with solely a delay of three weeks in comparison with the conventional or non-pandemic state of affairs. The scholars might be dropped at the campus by an SOP because the state of affairs improves and permits,” it mentioned.

Talking on the event, its Director Prof R V Raja Kumar mentioned, “We might begin the brand new educational yr on time and we at the moment are left with the one problem of commencing the courses for recent and 2020-21 batch of B Tech college students.” Noting that JEE Mains and JEE (Superior) examinations are scheduled for September, he mentioned the institute will be capable of admit the scholars, and start their courses after a few months and save the tutorial yr of the B Tech freshers.

“It’s actually possible to manage up with the pandemic and cut back the dangers by being aware and by taking the precautions to offer proper alternatives for our youth,” the director mentioned.

On the effectiveness of the net mode of schooling, Prof Kumar mentioned, “the pandemic compelled us to begin the brand new educational yr by online mode. It has some drawbacks and a few benefits too. Our endeavour ought to be to attenuate the disadvantages and capitalize on the benefits.

“At IIT Bhubaneswar I’ve personally addressed the college and suggested them to do efficient online educating, preserve the ‘join’ and interplay by adopting the very best practices, personal progressive practices and a few experimentation, within the online mode. Proper drawback fixing assignments with suggestions to college students which might be carried out online is necessary for participatory studying.” The hands-on for the laboratory half might be carried out as soon as the scholars return to the campus. However some concurrent online laboratory coaching too might be supplied now itself alongside the idea courses, in order that their studying will not be affected as a result of delayed laboratory apply, he mentioned.

Studying is a vital element of schooling and subsequently the function of a pupil, the principle stakeholder is essential for the success of the endeavour, the director mentioned.

A pupil ought to concentrate on it that one must be entrepreneurial in arranging a tool and connectivity and likewise put the additional effort in making one's studying from the net schooling efficient. The society can hope for this at this time juncture from the scholars of upper schooling, he mentioned.

Dr Pravas R Sahu, Dean (Educational) mentioned IIT Bhubaneswar accomplished its schooling of the final educational yr with none compromises and well timed by stay streaming of courses, conducting remaining laboratory courses and thesis work by online means, conducting typical examinations by creating and adopting a novel and really progressive online technique for all of its college students, regardless of the Covid-19 pandemic.
