PhD and PG students register at IIT Bbsr for orientation

BHUBANESWAR, 21 JULY:

Registration for Ph.D. and PG students for an orientation programme was conducted today at IIT Bhubaneshwar.

Prof Raja Kumar, Director of IIT, said "The M. Tech and Ph.D. students constitute an important class of students who have done well in their Bachelors, proved themselves typically in the university system and have come to IIT for specialising in a narrow area of their domain."

Most students join R&D organisations or educational institutions of the country after completion of the programme, thus adding to the R&D pool of the country. Prof. Kumar said, three new M. Tech programmes were hence started last year.
