## Sports complex at city IIT by next month

TIMES NEWS NETWORK

**Bhubaneswar:** The Indian Institute of Technology Bhubaneswar (IITBBS) will soon get a national-level sports facility on its campus with authorities hoping it would be ready within a month.

"The sports complex is spread over around 22 acres. It has both indoor and outdoor facilities for different types of sports. We had planned this sports complex three years ago. The construction started a year back. The facility will be ready within a month," IITBBS director R V Raja Kumar said.

He said the sports complex will have a big modern student activity centre, facility for yoga, basketball and badminton courts besides ground for hockey, football and cricket. "It will be a green field sports complex," he added.

"Our students, teachers

and staff will use this facility and keep themselves fit. Students can also take part in different sports events," Kumar said. "Construction of the complex is at an advanced stage. Some facilities have already been completed. Work continues on the others," the director stated.
