Bhubaneswar: As many as 100 students of Indian Institute of Technology (IIT), Bhubaneswar today visited the twin hills of Khandagiri and Udaygiri for an exposure visit. The students also lifted garbage from both the sites.

The students who participated in the 77th Monks, Caves and Kings Heritage tour were really overwhelmed by the legends of Emperor Kharavela and were highly intrigued with the ancient stone etchings full of valuable information of our past.

However, the students of the prestigious institute cleaned the site after one student Tanmay Khobe started collecting the trash lying around. His act inspired his fellow batch mates and they joined him to make the place free of litter.

The Monks, Caves and Kings at the famous Jain heritage site of twin hills of Khandagiri and Udayagiri take place on Saturday morning.
