1 Preface

The birth of Indian Institute of Technology (IIT) Bhubaneswar was a historic event for the country in general and Orissa in particular. People of Orissa were demanding for an IIT for quite a long time. On the occasion of 60th Anniversary of our country's Independence on 15th August 2007, Dr Manmohan Singh, Hon'ble Prime Minister of India, made the announcement about the expansion of IIT system in the country. Further, the National Development Council (NDC) of the Planning Commission, in its 54th meeting held on 19th December 2007, approved the proposal as part of the approval process of the 11th Five Year Plan (2007-12). But the actual birth of the Institute was announced by the Hon'ble Minister of Human Resource Development Shri Arjun Singh in a Press Conference on 28th March 2008. The Ministry of Human Resource Development (MHRD), in Department of Higher Education, Government of India, vide its Order dated 9th May 2008, decided that IIT Kharagpur would mentor the setting up of this new IIT for 2-3 years. It was further decided that the Director of the mentor IIT i.e. IIT Kharagpur, would be the mentor Director of the new IIT pending selection of regular Director and the Chairman, Board of Governors (BOG) of IIT Kharagpur would also be the Chairman of the BOG of this new mentored IIT.

The Union Cabinet, in its meeting held on 17th July 2008 approved setting up 8 new IITs, including IIT Bhubaneswar, at a cost of Rs.760 crore per IIT. The Cabinet also approved creation of the post of Director and Registrar along with 30 Faculty per year for each of the new IITs. It was also decided that pending amendment of the Institute of Technology Act,1961 for inclusion of IIT Bhubaneswar as an Institute of National Importance, the Institute would start functioning under the aegis of Indian Institute of Technology Bhubaneswar Society, to be registered under the Societies Registration Act, 1860 (Act XXI of 1860). The main philosophy behind the creation of new IIT was not only the expansion of access to high quality education in the field of Science and Technology, but also to address the State/Region specific technology related problems of the State.

Papers were filed on 19th July 2008 with the Registrar of Societies Orissa, Cuttack, for registration of IIT Bhubaneswar Society and the Society got registered on 22nd July 2008 vide Registration No. 22857/67 of 2008-09. IIT Bhubaneswar became the first amongst the eight new IITs to become operational, with a sanctioned intake of 40 students each in the disciplines of Civil, Mechanical and Electrical Engineering. Classes for the First Batch of students started running from the campus of IIT Kharagpur at Kharagpur, the mentor Institute for IIT Bhubaneswar on 23rd July, 2008 with admission of 95 students. The process of selection of Faculty and the Registrar were initiated through issue of advertisement on all India basis. The first Registrar of the Institute Shri Bata Kishore Ray joined on 31st December 2008.

In order to finalise the site for the permanent campus of IIT Bhubaneswar, the MHRD had set up a Site Identification Committee under the Chairmanship of Shri Ashok Takhur, Additional Secretary to the Government of India which visited Orissa during December 24-25, 2008. After visiting four sites proposed by the Government of Orissa i.e Banki, Ramdaspur in Cuttack district and Gayabandh and Jatni in Khordha district, the Committee recommended the site at Jatni. The recommendation of the Committee was approved by the Government of India on **13th January 2009**. The Government of Orissa agreed to provide 936 acres of land free of cost, out of which about 517 acres of land had been given physical possession on 10th of February 2009. The State Government also agreed to provide other key infrastructural facilities, including making available 3 million gallons of water per day, uninterrupted power supply of 5 megawatt and a four-lane road from National Highway No.5 (Kolkota-Chennai) to this new IIT . The site near Jatni Railway (Khurda Road Junction) Station on East Coast Railway is about 25 kilometres from Biju Patnaik Airport Bhubaneswar. The land is quite picturesque, with famous and beautiful Barunai Hill on one side and a reserve forest nearby. The latitude and longitude of the permanent campus of the Institute is 20° 10' N and 85° 42'E.

The first Meeting of the Board of Governors [BoG] and that of the Finance Committee of the Institute was held on 30th January 2009 at Tata Centre, Kolkota under the chairmanship of Shri B Muthuraman, (M.D) Tata Steel while 2nd Meeting of BoG was held on 12th February 2009 at Bhubaneswar. The Foundation Stone for the permanent campus of the Institute was laid on **February 12, 2009**. Shri Naveen Patnaik, Hon'ble Chief Minister of Orissa graced the Occasion as the Chief Guest. Speech of the Hon'ble Minister of HRD Shri Arjun Singh, who could not come, was read in absentia. A crowd of about 10,000 people, including many dignitaries, from all walks of life had gathered to witness the event.

The process of having a Master Plan for this Institute and global tender for choice of Architect & Project Management Consultant were initiated. It is expected that the Institute could operate from its permanent campus within next three years. The Institute would be designed to have a self contained campus for 10,000 students and 1100 faculty. The total campus population is expected to be 20,000. A Science Park would be part of this institution. The Park would house a large number of industry supported R&D units. It would promote industry relevant collaborative R&D activities with the institute and facilitate practice relevant education. The Institute would offer education and research programmes in disciplines of national and global interest. The specific local needs would also be taken care of to promote inter-disciplinary education and research. The Institute would not have many narrow specialization oriented departments. It would have few Schools and each School could offer several programmes. The IIT Kharagpur Extension Centre in Bhubaneswar was being developed to make it the temporary campus for IIT Bhubaneswar from the academic session 2009-10 i.e. **July 2009**.

2 Director's Report

The Indian Institute of Technology (IIT) Bhubaneswar is the first amongst the 8 new IITs to become operational in 2008. IIT Bhubaneswar was registered as a Society on 22nd July 2008. The Institute started operating from 23rd July 2008, with 95 students from the campus of IIT Kharagpur, the mentor Institute for IIT Bhubaneswar. The Institute is offering undergraduate programmes (B. Tech) in Electrical, Civil and Mechanical Engineering with an intake capacity of 40 students each. The students were treated at par with students of IIT Kharagpur in all respect. They stayed in the same hostel, attended the same classes and played in the same playground as the students of IIT Kharagpur. They were attending classes with the students of IIT Kharagpur following the same course curricula. They also actively participated in all student events and even a contingent of students of IIT Bhubaneswar participated in the Inter-IIT Meet held at IIT Madras.

The Government of Orissa has contributed significantly for the establishment of this new IIT. The State Government has already provided 936 acres of land for IIT Bhubaneswar at Arugul near Jatni Railway Station, 25 km from the city of Bhubaneswar. The Institute has already taken advanced possession of 517 acres of land and initiated the process for construction of the 10 km long boundary wall. The Government of Orissa has also taken initiative for providing water and electricity connection to the site. The approach road is being widened and flyovers are being built.

IIT Kharagpur as mentor of IIT Bhubaneswar did everything possible to make sure that the students from 2009-10 batch onwards start their class from Bhubaneswar. IIT Kharagpur from its own resources added to its Campus at Bhubaneswar more than 100,000 square ft of built up area to house the Classrooms,

Laboratories and Offices of IIT Bhubaneswar. Additional electricity and water provision was made. The Institute purchased one acre of additional land from Govt. of Orissa and building a hostel of 250 capacity for the students of IIT Bhubaneswar. The Institute helped in the development of Laboratories, procurement of equipments, library books etc. The classes for IIT Bhubaneswar are now being held from the mentor Institute's Campus at Bhubaneswar. IIT Kharagpur initiated the process of hiring faculty. Shri B.K. Ray joined as a Registrar of the institute on 31.12.2008.

The foundation stone for IIT Bhubaneswar was laid at the site at Arugul on 12th February 2009. The occasion was graced by the Honourable Chief Minister of Orissa, Shri Naveen Patnaik, the Honourable Member of Parliament, Bhubaneswar and other dignitaries including Shri Ashok Thakur the Additional Secretary, Government of India, Ministry of Human Resource Development.

8 Academic Report

The Indian Institute of Technology Bhubaneswar was established on 23rd July 2008. The Institute started operating from the Campus of its mentor Institute, IIT Kharagpur with 95 students with B.Tech in **Civil, Electrical and Mechanical Engineering** and the classes began on 23rd July 2008.

Admission of first batch

On 23rd July 2008, the first batch students of IIT Bhubaneswar had started classes along with students of IIT Kharagpur. The institute had admitted 95 students through IIT JEE, distributed over three disciplines: Civil Engineering, Electrical Engineering and Mechanical Engineering.

Gender-wise Distribution of admitted students in different Categories

Undergraduate (First year)			
Categories	Male	Female	Total
General	48	04	52
SC	08	03	11
ST	00	00	0
OBC	30	02	32
PD	00	00	0
Total	95	09	95

Scholarship

During the year, Merit-cum-Means (MCM) Scholarships along with Tuition Fee Waiver were awarded to 21 students, while 3 students (were awarded Merit) scholarships only and free studentships were given to 10 students, of the institute. The rate of scholarship was Rs. 1000/- per month and tuition fee waiver was Rs. 25,000/- per semester.
