

CURRICULUM VITAE

SASIDHAR KONDARAJU

Assistant Professor, Schoold of Mechanical Sciences
Indian Institute of Technology Bhubaneswar,
Samantapuri, Bhubaneswar 751013, India

Telephone: 91 0674306392
e-mail: sasidhar@iitbbs.ac.in

Educational Qualifications:

B.E. (2003) Mechanical Engineering, Osmania University, India
M.S. (2006) Mechanical Engineering, Wayne State University, USA
Ph.D. (2009) Mechanical Engineering, Wayne State University, USA

Professional Experience:

INSPIRE Faculty (2013/1 – Present), Indian Institute of Technology Delhi, India
Research Professor (2011/1 – 2012/9), Yonsei University, Korea
Post Doctoral Fellow (2009/9 – 2010/10), University of Arizona, USA

Research Experience:

Assistant Professor, Indian Institute of Technology Bhubaneswar, February 2016 – Present
Droplet interfacial science, Microfluidics, Surface wettability, Droplet condensation

INSPIRE Faculty, Indian Institute of Technology Delhi, January 2013 – January 2016
Studies the problems involved in condensation phase change heat transfer, liquid droplet suspensions, hemodynamics and droplet wetting. Performs lattice Boltzmann and finite difference simulations to understand the above mentioned problems.

Research Professor, Yonsei University, Korea, January 2011 – September 2012
Involved in Brain Korea Research, BKR-21. Study of rheological behavior of emulsions using lattice Boltzmann simulations. Study of droplet dynamics on wetting surfaces.

Research Associate, University of Arizona, September 2009 – November 2010
Direct numerical simulations using finite volume approach for analysis of flow over wind turbine blades. Investigation of flow separation over wind turbine blades and study the effect of plasma actuator, vortex jet generators and fluidic actuators for flow control over wind turbine airfoils.

Research assistant, Wayne State University, August 2004 – August 2009
Development of multiphase direct numerical simulation model. Study of thermophysical properties of nanofluids. Study of effect of solid particle suspensions of turbulent characteristics of isotropic turbulent flows.

Teaching Experience:

INSPIRE Faculty, Indian Institute of Technology Delhi, January 2013 – January 2016, Thermal Science Laboratory, Applied Mathematics of Thermal Engineers, Multiphase Flows, Scaling Analysis and Self-Similarity Solutions, Micro/Nanoscale Heat Transfer **Research Professor, Yonsei University, January 2011 – September 2012**, Assisted in teaching Numerical Methods, Lattice Boltzmann Modeling, Computational Bio-Physics.

Research Grants:

Title: *Study of wetting and de-wetting phenomenon for fog-water harvesting*, 2013 – 2018,

Sponsor: Department of Science and Technology (DST), India

Role: Principal Investigator

Period: January 2013 - December 2017

Title: *Engineering of Droplet Manipulation in Tertiary Microfluidic Channels*

Sponsor: AOARD (Asian Office of Aerospace Research and Development), USA

Role: Co-Principal Investigator

Period: July 2015 – June 2016

Publications:

Peer-Reviewed Journal Publication
