"The scourge of terrorism affects innocent lives across the globe. Our country believes in the concept of "Vasudhaiva Kutumbakam", a philosophy that tries to foster an understanding that the whole of humanity is one family, in true spirits and never exhibited territorial interests and never supported terrorism," the director said. "An educational Institution has the opportunity in educating and sensitizing the students in large numbers about the terrorism menace. We can also help develop effective technologies which can help to detect and counter terrorist activities well in advance," he added. This year's event assumed special significance in the light of deplorable terrorist attacks in Pulwama region of Jammu and Kashmir. ENS
