IIT's green mission

● Express Features

Like at other branches, Ministry of Environment, Forest and Climate Change initiated the National Clean Air Programme at IIT Bhubaneswar. Along with Odisha State Pollution Control Board, the institute is taking active participation in spreading awareness environmental issues.

As part of the initiative, students of IIT Bhubaneswar conducted a plantation drive on the institute's campus on the eve of World Environment Day (June 5.)

The drive was aimed at campaigning for green culture and promoting a greener ecosystem along with providing a pollution-free atmosphere to the residents inside the campus.

"We are committed towards building a green campus, we have achieved a fairly good amount of success in this endeavour," said IIT director
