Vehicles on battery now at IIT Bbsr

BHUBANESWAR, 1 JULY:

A battery-operated vehicle service was launched in IIT Bhubaneswar campus by Prof. R.V.Raja Kumar, Director of the Institute. The initiative is part of IIT Bhubaneswar's effort to go green.

"We are committed towards building a green campus, which has already been successful through massive plantation drives, cycling culture, zero discharge designs and other initiatives," said the Director.

He added that besides being eco-friendly the new service is convenient. SNS
