First batch of Integrated Teacher Education Programme begins at IIT

IIT Bhubaneswar has started classes for its 4-year BSc-BEd Integrated Teacher Education Programme. The programme aims to equip future teachers with essential skills and knowledge to effectively teach students. It offers a condensed time frame of four years, unlike the conventional five-year duration. The first batch of 50 students, selected through a national-level entrance test, will undergo their entire education in an active learning environment. The programme includes subjects like art education, Sanskrit language, and yoga, along with core subjects like physics, chemistry, mathematics, and economics.

First batch of Integrated Teacher Education Programme begins at IIT

BHUBANESWAR: Indian Institute of Technology (IIT) Bhubaneswar, which has introduced a 4-year BSc-BEd Integrated Teacher Education Programme (ITEP) from the 2023-24 academic year, began classes for the first batch of 50 students from Tuesday.

IIT Bhubaneswar is one among the two IITs to start the programme this year. Other one is IIT Kharagpur. The students were selected via a national-level common entrance test conducted by the National Testing Agency (NTA).

The national institute has offered the Bachelor of Science (BSc) with Bachelor of Education (BEd) in physics, chemistry, mathematics and economics.

“Students enrolled in this programme will complete their studies within a condensed time frame of four years, unlike the conventional five-year duration mandated by the current BEd curriculum,” said the official statement of the institute.

IIT Bhubaneswar director Shreepad Karmalkar along with experts from different reputed institutions interacted with students. The orientation was held in an active learning classroom. Karmalkar said the ITEP students are the first batch who will have the privilege of undergoing their entire education in an active learning environment, which promotes communication, collaboration and critical thinking skills essential for success in any profession including teaching.

SUBHASHISH MOHANTY

Bhubaneswar: Indian Institute of Technology (IIT) Bhubaneswar, as part of its new initiative towards creating outstanding teachers, has introduced a four-year B.Sc-B.Ed Integrated Teacher Education Programme (ITEP) from the 2023-24 academic session.

The classes for the first batch of 50 students from different states of India commenced on Tuesday. The students were selected via the National Common Entrance Test (NCET) conducted by the National Testing Agency (NTA).

"IIT Bhubaneswar is one of the two IITs (the other being IIT Kharagpur) to start the programme this year. The institute has offered the Bachelor of Science (B.Sc) with Bachelor of Education (B.Ed) in Physics, Chemistry, Mathematics and Economics. Students enrolled in this programme will complete their studies within a condensed timeframe of four years, unlike the conventional five-year duration mandated by the current B.Ed curriculum," said a media release issued by IIT Bhubaneswar.

IIT Bhubaneswar director Prof. Shreepad Karmalkar, along with experts including

former vice-chancellor of the Central University of Bihar, Prof. Harish Chandra Singh Rathore, and principal of Regional Institute of Education, Bhubaneswar, Prof. Prakash Chandra Agarwal, highlighted the unique features.

Prof. Karmalkar pointed out that ITEP students are the first batch who will have the privilege of undergoing their entire education in an active learning environment, which promotes communication, collaboration and critical thinking skills essential for success in any profession.

He also noted that the majority of ITEP students were women though there is no reservation for women in the programme.

Although the ITEP is optimised to create outstanding teachers, the students enrolled on this programme can also take up research and development careers. This course will provide the relevant degree, academic credits and knowledge to the students to pursue their higher studies in any of the international universities.

The ITEP is an initiative by the National Council for Teacher Education to ensure that outstanding students enter the teaching profession at the school level.

The Indian Institute of Technology (IIT) Bhubaneswar has introduced a 4-year B.Sc-B.Ed Integrated Teacher Education Program (ITEP) from the 2023-24 academic year.

The classes for the first batch of 50 students from different States of India commenced from October 17. The students were selected via National Common Entrance Test (NCET) conducted by the National Testing Agency (NTA).

The IIT Bhubaneswar is one among the two IITs, including IIT Kharagpur, to start the

programme this year. The institute has offered the Bachelor of Science (B.Sc.) with Bachelor of Education (B.Ed.) in Physics, Chemistry, Mathematics and Economics. Students will complete their studies within a condensed timeframe of four years, unlike the conventional five-year duration mandated by the current B.Ed. curriculum.

To maximise the effectiveness of this new programme, separate interactive orientations were

held for the students, their parents and associated faculty. IIT, Bhubaneswar Director Prof Shreepad Karmalkar, along with experts, highlighted the unique features.

In contrast to students of other programmes, the assessment of ITEP students will include a component involving demonstration of teaching skills in all courses undergone by them. A majority of ITEP students are women though

there is no reservation for women in the programme.

ITEP is an initiative by the National Council for Teacher Education (NCTE) under the Union Ministry of Education to ensure that outstanding students enter the teaching profession at the school level. ITEP will be available to all students who choose teaching as a profession after passing the exit examination of Higher Secondary (10+2) in

any discipline (Science/ Humanities/ Commerce/ Others). The primary objective of ITEP is to equip the teachers of tomorrow with the necessary skills and knowledge to effectively teach students at the various stages of formal education following the revised educational framework outlined in the National Education Policy (NEP)-2020. A student undergoing this programme will be grounded in Indian values, languages, knowledge, ethos, tribal traditions and well versed in latest advances in education and pedagogy.

The ITEP at IIT Bhubaneswar includes various subjects like Art Education (performing and visual), Sanskrit Language and Yoga along with the core subjects.

First Batch Of Integrated Teacher Education Program (ITEP) Begins At IIT Bhubaneswar

Bhubaneswar: Indian Institute of Technology (IIT) Bhubaneswar, as part of its new initiative towards creating outstanding teachers and add value to the education system of India, has introduced a 4-year B.Sc – B.Ed Integrated Teacher Education Program (ITEP) from the 2023-24 academic year. The classes for the first batch of 50 students from different states of India have commenced from 17th October 2023. The students were selected via National Common Entrance Test (NCET) conducted by the National Testing Agency (NTA).

IIT Bhubaneswar is one among the two IITs (including IIT Kharagpur) to start the Program this year. The Institute has offered the Bachelor of Science (B.Sc.) with Bachelor of Education (B.Ed.) in Physics, Chemistry, Mathematics and Economics. Students enrolled in this Program will complete their studies within a condensed timeframe of four years, unlike the conventional five-year duration mandated by the current B.Ed. Curriculum.

To maximize the effectiveness of this new important program, separate interactive orientations were held for the students, their parents and associated faculty. Prof. Shreepad Karmalkar, Director, IIT, Bhubaneswar, along with experts including Prof. Harish Chandra Singh Rathore, Former Vice-Chancellor, Central University of Bihar and Prof. Prakash Chandra Agarwal, Principal, Regional Institute of Education, Bhubaneswar, highlighted the unique features. They also responded to the questions along with the ITEP coordinators – Dr. Rajan Jha, Head, School of Basic Sciences and Dr. Dukhabandhu Sahoo, Head, School of Humanities, Social Sciences & Management and Deans – Dr. Rajesh Roshan Dash, Dean (Student Affairs) and Dr. Shantanu Pal, Dean (Undergraduate Programs). The orientation was held in an Active Learning Classroom, where learners are seated in groups of three on movable chairs around round tables to promote interactions and collaborative activities. Speaking on the occasion, Prof. Karmalkar pointed out

that ITEP students are the first batch who will have the privilege of undergoing their entire education in an active learning environment, which promotes communication, collaboration and critical thinking skills essential for success in any profession including teaching. Further, in contrast to students of other Programs, the assessment of ITEP students will include a component involving demonstration of teaching skills in all courses undergone by them. He also noted that majority of ITEP students were women though there is no reservation for women in the ITEP Program. Major queries addressed during the orientation interaction were as follows.

1. An R&D career for ITEP students: Though ITEP is optimized to create outstanding teachers, the students enrolled into this program can also take up research and development careers as other students. As per the existing policy, they have to acquire a Master's Degree prior to applying for a PhD Program. Several parents suggested to make a provision to add on 16 credits of coursework leading to an ITEP Honours degree, after which the students can directly join a PhD program if they so wish.

2. Higher education in international universities: This course, as any other course of India, will provide the relevant degree, academic credits and knowledge to the students to pursue their higher studies in any of the international universities. However, they have to pursue the regular process of application and admission into their desired courses/institutions/universities. The worldwide recognition of being an IITian will enhance their academic credentials.

It may be mentioned that ITEP is a momentous initiative by the National Council for Teacher Education (NCTE), under Ministry of Education, Govt. of India, to ensure that outstanding students enter the teaching profession at the school level. ITEP will be available to all students who choose teaching as a profession after passing the exit examination of Higher Secondary (10+2) in any discipline (Science/Humanities/ Commerce/ Others). The primary objective of ITEP is to equip the teachers of tomorrow with the necessary skills and knowledge to effectively teach students at the various stages of formal education, following the revised educational framework outlined in the National Education Policy (NEP)-2020. A student undergoing this program will be grounded in Indian values, languages, knowledge, ethos, tribal traditions and well versed in latest advances in education and pedagogy.

The ITEP at IIT Bhubaneswar includes various subjects like Art Education (performing and visual), Sanskrit Language and Yoga, along with the core subjects. The students enrolled in this Program have the advantages of an excellent academic environment, research opportunities and infrastructural facilities along with a vibrant campus life.

First Batch of Integrated Teacher Education Program (ITEP) begins at IIT Bhubaneswar

October 17, 2023

Bhubaneswar, 17th October (Local Wire): Indian Institute of Technology (IIT) Bhubaneswar, as part of its new initiative towards creating outstanding teachers and add value to the education system of India, has introduced a 4-year B.Sc – B.Ed Integrated Teacher Education Program (ITEP) from the 2023-24 academic year.

The classes for the first batch of 50 students from different states of India have commenced from 17th October 2023.

The students were selected via National Common Entrance Test (NCET) conducted by the National Testing Agency (NTA).

IIT Bhubaneswar is one among the two IITs (including IIT Kharagpur) to start the Program this year.

The Institute has offered the Bachelor of Science (B.Sc.) with Bachelor of Education (B.Ed.) in Physics, Chemistry, Mathematics and Economics.

Students enrolled in this Program will complete their studies within a condensed timeframe of four years, unlike the conventional five-year duration mandated by the current B.Ed. Curriculum.

To maximize the effectiveness of this new important program, separate interactive orientations were held for the students, their parents and associated faculty. Prof. Shreepad Karmalkar, Director, IIT, Bhubaneswar, along with experts including Prof. Harish Chandra Singh Rathore, Former Vice-Chancellor, Central University of Bihar and Prof. Prakash Chandra Agarwal, Principal, Regional Institute of Education, Bhubaneswar, highlighted the unique features.

They also responded to the questions along with the ITEP coordinators – Dr. Rajan Jha, Head, School of Basic Sciences and Dr. Dukhabandhu Sahoo, Head,

School of Humanities, Social Sciences & Management and Deans – Dr. Rajesh Roshan Dash, Dean (Student Affairs) and Dr. Shantanu Pal, Dean (Undergraduate Programs).

The orientation was held in an Active Learning Classroom, where learners are seated in groups of three on movable chairs around round tables to promote interactions and collaborative activities.

Speaking on the occasion, Prof. Karmalkar pointed out that ITEP students are the first batch who will have the privilege of undergoing their entire education in an active learning environment, which promotes communication, collaboration and critical thinking skills essential for success in any profession including teaching.

Further, in contrast to students of other Programs, the assessment of ITEP students will include a component involving demonstration of teaching skills in all courses undergone by them. He also noted that majority of ITEP students were women though there is no reservation for women in the ITEP Program.

Major queries addressed during the orientation interaction were as follows.

1. An R&D career for ITEP students: Though ITEP is optimized to create outstanding teachers, the students enrolled into this program can also take up research and development careers as other students.

As per the existing policy, they have to acquire a Master's Degree prior to applying for a PhD Program. Several parents suggested to make a provision to add on 16 credits of coursework leading to an ITEP Honours degree, after which the students can directly join a PhD program if they so wish.

2. Higher education in international universities: This course, as any other course of India, will provide the relevant degree, academic credits and knowledge to the students to pursue their higher studies in any of the international universities. However, they have to pursue the regular process of application and admission into their desired courses/institutions/ universities.

The worldwide recognition of being an IITian will enhance their academic credentials.

It may be mentioned that ITEP is a momentous initiative by the National Council for Teacher Education (NCTE), under Ministry of Education, Govt. of

India, to ensure that outstanding students enter the teaching profession at the school level.

ITEP will be available to all students who choose teaching as a profession after passing the exit examination of Higher Secondary (10+2) in any discipline (Science/Humanities/ Commerce/ Others).

The primary objective of ITEP is to equip the teachers of tomorrow with the necessary skills and knowledge to effectively teach students at the various stages of formal education, following the revised educational framework outlined in the National Education Policy (NEP)-2020.

A student undergoing this program will be grounded in Indian values, languages, knowledge, ethos, tribal traditions and well versed in latest advances in education and pedagogy.

The ITEP at IIT Bhubaneswar includes various subjects like Art Education (performing and visual), Sanskrit Language and Yoga, along with the core subjects.

The students enrolled in this Program have the advantages of an excellent academic environment, research opportunities and infrastructural facilities along with a vibrant campus life.

आइआइटी भुवनेश्वर में आइटीइपी का पहला बैच शुरू

सक्रिय शिक्षण माहौल में 17 अक्टूबर कक्षाएं से शुरू हो गयीं, जो संचार, सहयोग और अहम विचारों को बढ़ावा देंगी

छात्रों, अभिभावकों और पाठ्यक्रम संकाय के लिए अलग-अलग ओरिएंटेशन आयोजित किये गये

आजाद सिपाही संवाददाता

भुवनेश्वर। भारतीय प्रौद्योगिकी संस्थान (आइआइटी) भुवनेश्वर ने उत्कृष्ट अध्यापकों के निर्माण एवं भारत की शिक्षा प्रणाली में मूल्यवर्धन की एक नयी पहल के रूप में, 2023-24 शैक्षणिक वर्ष से 4 वर्षीय बीएससी-बीएड एकीकृत अध्यापक शिक्षा कार्यक्रम (आइटीइपी) का शुभारंभ किया है। भारत के विभिन्न राज्यों के 50 छात्रों के पहले बैच के लिए कक्षाएं 17 अक्टूबर 2023 से शुरू हो गयी हैं। इस कार्यक्रम में सहभागिता करने वाले छात्रों का चयन नेशनल टेस्टिंग एजेंसी (एनटीए) द्वारा आयोजित नेशनल कॉमन एंट्रेंस टेस्ट (एनसीईटी) के माध्यम से किया गया। आइआइटी भुवनेश्वर इसी वर्ष से इस कार्यक्रम को शुरू करने वाले दो आइआइटी (आइआइटी खड़गपुर सहित) में

से एक है। संस्थान ने भौतिकी, रसायन विज्ञान, गणित और अर्थशास्त्र में बैचलर ऑफ एजुकेशन (बीएड) के साथ बैचलर ऑफ साइंस (बीएससी) जैसे कोर्सों की भी शुरुआत की है। इस कार्यक्रम में नामांकित छात्र वर्तमान बीएड पाठ्यक्रम द्वारा अनिवार्य पारंपरिक पांच साल की अवधि की तुलना में मात्र चार वर्षों की संक्षिप्त समय सीमा के भीतर ही अपनी पढ़ाई पूरी सकेंगे।

इस नये महत्वपूर्ण कार्यक्रम की प्रभावशीलता को बढ़ावा देने के उद्देश्य से, छात्रों, उनके अभिभावकों एवं संबंधित संकाय के लिए अलग-अलग इंटरैक्टिव ओरिएंटेशन आयोजित किये गये। इस अवसर पर आइआइटी भुवनेश्वर के निदेशक प्रोफेसर श्रीपाद करमलकर, बिहार केंद्रीय विश्वविद्यालय के पूर्व कुलपति

प्रोफेसर हरीश चंद्र सिंह राठौर और क्षेत्रीय शिक्षा संस्थान, भुवनेश्वर के प्राचार्य प्रोफेसर प्रकाश चंद्र अग्रवाल जैसे विशेषज्ञों ने इस कार्यक्रम के महत्व पर प्रकाश डाला। इस कार्यक्रम में आइटीइपी समन्वयकों डॉ राजन झा, प्रमुख, आधारीय विज्ञान विद्यापीठ स्कूल और डॉ दुखबंधु साहू, प्रमुख, मानविकी, सामाजिक एवं प्रबंध विज्ञान विद्यापीठ और डॉ राजेश रोशन दाश, डीन और डॉ शांतनु पाल, डीन ने भी छात्रों द्वारा पूछे गये प्रश्नों के उत्तर दिये।

यह ओरिएंटेशन कार्यक्रम एक सक्रिय शिक्षण कक्षा में आयोजित किया गया, जिसमें शिक्षार्थियों को बातचीत और सहयोगी गतिविधियों को बढ़ावा देने के लिए तीन लोगों के समूह में बैठाया गया, ताकि पारस्परिक वैचारिक आदान-प्रदान किया जा सके। इस उपलक्ष्य पर

सभी को संबोधित करते हुए प्रोफेसर करमलकर ने बताया कि आइटीइपी छात्र पहले बैच हैं, जिन्हें अपनी पूरी शिक्षा एक सक्रिय शिक्षण माहौल में पूरी करने का मौका प्राप्त होगा, जो शिक्षण सहित किसी भी पेशे में सफलता के लिए आवश्यक संचार, सहयोग और महत्वपूर्ण वैचारिक कौशल को बढ़ावा देता है। उन्होंने यह भी कहा कि अन्य कार्यक्रमों के छात्रों की तुलना में आइटीइपी छात्रों के मूल्यांकन में उनके द्वारा किये गये सभी पाठ्यक्रमों में शिक्षण कौशल के प्रदर्शन से जुड़ा एक घटक शामिल किया जायेगा। उन्होंने इस तथ्य पर भी सकारात्मक प्रकाश डाला कि यद्यपि आइटीइपी के में शामिल अधिकांश छात्र लड़कियां हैं तथापि आइटीइपी कार्यक्रम में उनके के लिए कोई आरक्षण नहीं है। आइआइटी भुवनेश्वर में चलाये जा रहे आइटीइपी में मुख्य विषयों के साथ अन्य विभिन्न विषय यथा कला शिक्षा (प्रदर्शन और दृश्य), संस्कृत भाषा और योग दी शामिल हैं। इस कार्यक्रम में नामांकित होने वाले छात्रों को उत्कृष्ट शैक्षणिक वातावरण, अनुसंधान के अपार अवसर, आधारभूत सुविधाओं सहित एक जीवंत परिसर का लाभ मिलेगा।
