## Workshop on Affordable Housing: Materials and Technologies 19 June 2015

Organised by  
School of Infrastructure  
Indian Institute of Technology Bhubaneswar

### About the Workshop:

In line with the national mission 'Housing for All by 2022' of the Ministry of H&UD, there is a need to construct millions of affordable houses for urban poor and rural India. Hence, there is an urgent need of technological interventions so as to construct affordable houses with speed & quality with due care for structural, functional and environmental requirements to withstand diverse geo-climatic and natural hazard conditions.

This workshop is aimed at bringing the academicians, architects and engineers who are/will be a part of this national mission, together. There will be invited lectures by prominent experts followed by interactive discussion sessions. Major thrust areas selected for deliberation in the workshop are:

- Challenges and Opportunities in Implementing Very Large Scale Affordable Mass Housing Projects
- Low Cost Materials for Construction of Houses
- Faster Construction Technologies
- Low Cost Houses to Withstand Natural Calamities
- Use of Recycled Aggregates and Fly ash in Housing Sector

### Who can attend?

This workshop is for faculty of engineering institutes, practicing engineers and architects working in the pertinent major areas and Govt. officials spearheading the related programmes.

### Fees:

A nominal registration fee of Rs. 1000/- will be charges for the workshop. Payment can be made in favour of 'SRIC IIT Bhubaneswar' in the form of Cheque/DD payable at Bhubaneswar and should be sent to the contact address along with the application form. Travel and accommodation expenses need to be borne by the participants.

### Deadline:
