2-day IIT-BBS seminar on computing ends

Bhubaneswar: A two-day international conference on Soft Computing for Problem Solving (SocProS) at IIT Bhubaneswar ended on Sunday. Around 250 delegates from across the country and abroad attended it.

R V Raja Kumar, director of IIT Bhubaneswar, spoke on the emergence of soft computing from the classical areas of mathematical modelling, signal processing and computing. Gokulananda Das, mathematician and former Utkal University vice-chancellor, touched upon bi-variance and multi-variance approaches to soft computing.

Among others, Kalyanmoy Deb from Michigan State University, Ram Narayan Mohapatra of the University of Central Florida, Song Ping Zhu of University of Wollongong, Australia, Seyedali Mirjalili of Griffith University, Australia, and Ajit Verma of Haugesund University, Norway, also delivered lectures at the conference. Noted Odissi dancer Aruna Mohanty enthralled the audience with a recital. TNN
