

“Library in a Classroom” at Podapada School

“A room without books is like a body without a soul.” — Marcus Tullius Cicero

The recent pandemic has affected the reading habits of students and led them to spend more time on screens. This is not only detrimental to their health but also deprives them of the pleasure of reading. In order to rekindle their love for books, the UBA team donated a set of 100 books, neatly packaged in a hanging pouch, prepared by Pratham Books, and hence is called “Library in a Classroom.”. The books are appropriate for the students of Class V - VIII, and the set of books has books in English, Odia, and Hindi. The “Library in a Classroom” set was donated to Podapada upper primary school in **December 2023** by the UBA Coordinator, Dr. Seema Bahinipati, on behalf of the team.
